**67-80. soruları ilgili parçalara göre cevaplayınız.**

World population is increasing at an alarming rate, despite birth control and family planning. It is estimated that by the year 2060, the Earth will have 10 billion people. Governments, especially governments of developing countries, will face important difficulties in **their** countries because of the growing populations. The first and the most obvious challenge is to provide an adequate food supply. Next is to build enough housing. Severe unemployment will also be a problem if new jobs are not created in accordance with the increasing population. The last, and the most important, is the problem of providing education for everyone.

**67-** The main idea of this passage is that \_\_\_\_.

- a) world population is increasing at a fast rate so future generations will have many problems
- b) some of the current jobs will become outdated in the future as new ones are created
- c) education is the best way to meet the challenge of the world population growth
- d) there may be a major world food shortage during the next century

**68-** According to the text, governments \_\_\_\_.

- a) should cooperate to stop population growth
- b) of developed countries should help those of poorer countries
- c) are generally too bureaucratic to deal with their problems
- d) will face four important problems because of growing populations

**69-** According to the text, it is clear that \_\_\_\_.

- a) the effects of growing populations will be felt worse in developing countries
- b) there will be few developing countries by the year 2060
- c) unemployment is more important than the shortage of housing
- d) everyone has a right to a free education

**70-** "their" in line 4 refers to \_\_\_\_.

- a) 10 billion people'
- b) governments'
- c) food supplies'
- d) challenges'
