8. INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

Structure and Degree System

The basic structure of the Turkish National Education System consists of stages of non-compulsory pre-school education; compulsory primary (elementary and middle school) and secondary (high school) education; and higher education. Primary education begins at the age of 5.5 (66 months), lasts eight years and comprises elementary and middle school education, four years each. Secondary education is also four years and divided into two categories as "General High School Education" and "Vocational and Technical High School Education". The entry into these categories is through composite scores obtained from a centralized exam for secondary schools.

Higher education system in Türkiye is managed by the Council of Higher Education (CoHE, Yükseköğretim Kurulu-YÖK) which is an autonomous public body responsible for the planning, coordination, governance and supervision of higher education within the provisions set forth in the Constitution of the Turkish Republic and the Higher Education Law. Both state and non-profit foundation universities are founded by law and subjected to the Higher Education Law and to the regulations enacted in accordance with it.

Higher education in Türkiye comprises all post-secondary higher education programmes, consisting of short, first, second, and third cycle degrees in terms of the terminology of the European Higher Education Area (EHEA). Undergraduate level of study consists of short cycle (associate's-önlisans derecesi) and first cycle (bachelor's-lisans derecesi) degrees which are awarded after successful completion of full-time two-year (120 ECTS) and four-year (240 ECTS) study programmes, respectively. The structure of first and second cycles is separate except for dentistry, pharmacy, medicine and veterinary programmes which are one-tier systems (lisans ve yüksek lisans bütünleşik programları). The duration of these one-tier programmes is five years (300 ECTS) except for medicine which lasts six years (360 ECTS). The level of qualifications in these one-tier programmes is equivalent to that of second cycle including first cycle.

Graduate level of study consists of second cycle (master's-yüksek lisans derecesi) and third cycle (doctorate-doktora derecesi) degree programmes.

Second cycle degrees are divided into two sub-types named as master with thesis and master without thesis. The master programmes with thesis require 120 ECTS credits, which consist of courses, a seminar, and a thesis. Master programmes without thesis require 60 to 90 ECTS credits and consist of courses and a semester project. These programmes do not give direct access to third-cycle doctoral studies; for access to third-cycle programmes candidates should fulfil the thesis and other requirements of master programmes with thesis. 60 ECTS non-thesis master programmes are exceptional and exist in a few disciplines. Third cycle (doctorate with master degree) degree programmes are completed having earned 240 ECTS credits, which consist of completion of courses, a seminar, passing a scientific proficiency examination and a doctoral thesis. Third cycle (doctorate with bachelor degree) degree programmes are completed having earned 300 ECTS credits, which consist of completion of courses, a seminar, passing a scientific proficiency examination and a doctoral thesis. Proficiency in art, specialisation in medicine and in dentistry are accepted as equivalent to third cycle programmes, the last two being carried out within the faculties of medicine and dentistry, university hospitals and the training hospitals operated by the Ministry of Health.

Universities consist of graduate schools (Institutes) offering second cycle and third cycle degree programmes, faculties offering first cycle programmes, four-year professional higher education schools offering first cycle degree programmes and two-year vocational schools offering short cycle degree programmes.

Admission requirements: Admission of national students to short and first cycle degree programmes is centralised and based on a nationwide one/two-stage examination(s) conducted by an autonomous public body (Assessment, Selection and Placement Centre-OSYM). Candidates gain access to institutions of higher education based on their composite scores consisting of the scores on the selection examination and their high school grade point averages. Admission to graduate programmes is directly conducted by the higher education institutions (HEIs) within the frameworks of the publicly available national and institutional regulations. Admission of international students to programmes at all levels of higher education can be done by direct applications of candidates to HEIs based on publicly available national and institutional regulations.

Turkish National Qualifications Frameworks: The National Qualifications Framework for Higher Education in Türkiye (TQF-HE, TYYÇ in Turkish) developed with reference to the QF for European Higher Education Area and the EQF for lifelong learning was adopted by the CoHE in 2010. Later in 2015, the framework became a part of Turkish Qualifications Framework (TQF, TYÇ in Turkish) which was designed as a single framework in harmony with the European Qualifications Framework and displays all qualifications primary, secondary and higher education or other learning environments. The framework was referenced with the EQF in 2017.

TQF consists of 8 levels in which the higher education lies from 5 to 8. The levels of TQF and TQF-HE with reference to the European Overarching Qualifications Frameworks as well as that to ECTS credits and student workload are shown below.

Quality Assurance System: The Higher Education Quality Council of Türkiye (THEQC) was founded as an autonomous public legal entity in 2015, and since then it has been operating at the national level for evaluating the quality levels of higher education institutions' education and research activities and administrative services at institutional level in accordance with the national and international quality standards, and coordinating the processes of institutional accreditation, internal and external quality assurance as well as authorization of independent external evaluation and accreditation organizations. THEQC is a full member of ENQA (The European Association for Quality Assurance in Higher Education) since April of 28, 2020.

The purpose of the Diploma Supplement is to provide sufficient independent data to improve the international "transparency" and fair academic and professional recognition of qualifications (diplomas, degrees, certificates, etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued successfully and completed by the individual named on the original qualification to which this supplement is appended. It is free value judgements, from any equivalence statements or suggestions about recognition. This Diploma Supplement model was developed by European Commission, Council of Europe and UNESCO.

T.C. NUH NACİ YAZGAN UNIVERSITY DIPLOMA SUPPLEMENT

DIPLOMA SUPPLEMENT 1 - INFORMATION IDENTIFYING THE HOLDER OF THE QUALIFICATION 1.1. Last name(s) 1.2. First name(s) 1.3. Date of birth(day/month/year) 1.4. Student identification number or code (if available) 2 - INFORMATION IDENTIFYING THE QUALIFICATION 2.1. Name of qualification and (if applicable) title conferred 2.2. Main field(s) of study for the qualification: (in original language): **Business Administration** 2.3. Name and status of awarding institution (in original language) Nuh Naci Yazgan Üniversitesi, Vakıf Üniversitesi, Kâr Amacı Gütmeyen ve Devlet Tarafından Tanınan Vakıf Üniversitesi Nuh Naci Yazqan University, University, Non-profit and State Recognized Foundation University 2.4. Name and status of institution administering studies 2.5. Language(s) of instruction/examination Same as 2.3 Turkish 3 - INFORMATION ON THE LEVEL AND DURATION OF THE OUALIFICATION 3.1. Level of qualification 3.3. Access requirement(s) For Turkish Citizens: (1) High School Diploma, (2) Placement through a centralised First Cycle (Bachelor`s) Degree nation-wide student selection and placement examination organized Assessment, Selection and Placement Centre (ÖSYM). Candidates gain access to the programmes based on their composite scores consisting of the scores on the centralized exam 3.2. Official duration of programme in credits and/or and high school grade point averages vears: High School Diploma and its "Certificate of Equivalency" granted by the Turkish Ministry of National Education (MoNE). (2) Exam for International Student (YÖS) or international university entrance 4 years (240 ECTS), 8 Semesters, 16-18 weeks per examinations such as SAT I, ACT, ect., recognised by the national authority in higher education the Council of Higher Education (YÖK). Candidates gain access to the programmes based on their scores obtained from YÖS or equivalent exams. 4 - INFORMATION ON THE PROGRAMME COMPLETED AND THE RESULTS OBTAINED 4.1. Mode of study Full-time 4.2. Programme learning outcomes Students wishing to study Business Administration, must have numeric skills as well as the ability of verbal thinking. For this reason, students prone to social sciences, Turkish and mathematics, may choose to study Business Administration. At the same time those who want to be successful in business are reco about the current issues related to the business world.

Student Will;
To be able to produce solutions in current cases that may occur in business life by thinking innovative and analytical. To gather, analyze and interpret data related to business functions. To know the economic concepts required in the field of business and to use these concepts for economic analysis effectively. To know and apply total quality and efficiency management in enterprises. To define, interpret and evaluate business concepts. To be able to communicate in written and oral language in a foreign language. To be conscious of the social and cultural phenomenon. To adapt to team work, to show the promounication and social skills To be conscious of business ethics and legal rules. To have leadership and entrepreneurship skills. To use information and communication technologies required by today's

business life effectively.

Graduation Requirements:
A student is required to have a minimum CGPA of 2.00 / 4.00 and no falling grades.

4.3. Programme details, individual credits gained and grades/marks obtained:

Total ECTS Credits: 240 CGPA: 77.31 out of 100

C: Compulsory; E: Elective

4.4. Grading system and (if available) grade distribution table:

GRADING SCHEME AND GRADES;

CILAUSE 25 (1) The essentials of grades are as follows:

a) Achievement grades are determined in the way below with the assessment method the essentials of which have been specified by the Senate.

GRADE ASSESSMENT TABLE -Achievement grade: equivalent score out of a hundred

90-100 60-69 55 - 59

- According to this table,
 1) A student is counted successful if he has received one of A, B, C, D, or E.
 2) A student who has had (FX) is counted conditionally successful. In order for such a student to be considered successful, his GPA has to be at least 55.
- A student with a grade of F for a course is considered to be un-succesfull in that course.
- 4) a) A student's grade from a test he is not entitled to take is canceled.
 b) The grades not taken into account in calculating means and how they are interpreted are as follows:
 1- I grade (lacking grade). This grade is given by the members of teaching staff to the students who are successful during one semester but fail to meet the necessary conditions for the course on the grounds of illness or any other valid and legitimate reasons. When a student gets an I grade for a course, he has to get a grade by fulfilling the necessary conditions within 15 days following the notification or posting of the grade. Otherwise, the I grade spontaneously becomes F. Nevertheless, In cases of prolonged illness or in similar cases, the duration of the I grade can be extended up to the beginning of the following registration period, at the suggestion of head of the relevant department and with the approval of the management board.

 2- S grade (Satisfactory grade). It is given to the students successful in the courses which are not taken into account in calculating GPA.
- 2- 5 grade (Satisfactory grade). It is given to the students successful in the courses which are not taken into account in calculating GPA.

 3- T grade (Transfer grade). It is given to undergraduate or exchange students who would like to have a lateral transfer to a university from a domestic or overseas institution of higher learning, or within the same institution, to document and not to repeat the courses, upon the suggestion of ECTS coordinator regarding their accreditation.

 4- U grade. (Unsatisfactory grade). It is given to students who are not successful in the exemption regard for undergraduate study. This grade is not taken into account in the calculation of GPA.

 5- Ex grade (exemption grade). It is given to the students who are successful in the exemption tests by the relevant department on the courses determined by the senate.

 6- NI grade (non-participation grade). It is given to identify the extracurricular courses apart from those for which students are registered. This grade is demonstrated in the transcript together with the grade in letter. It cannot be used in getting a course taken into account in the program(s) the student is registered for. The courses for which a student gets NI cannot be repeated.

 7- NA grade (not attending grade). It is given to the students who have been unable to attend courses of which a student grade is lettered as an F grade.

- 9-The tables of "out of a hundred "system corresponding to "the out of the 4" system of Higher Education Council are used when converting the student's diploma grade into letter grade Determination of achievement grade and overall weighted point average

CLAUSE 28- (1) Tests are scored out of 100 points. The score of an intermediate examination or the end-of-the term examination is represented with numerical points. The point for an examination the student has not taken is zero. Point average of intermediate examinations is calculated by dividing the sum of the points for all the intermediate examinations by the number of the examinations. If the number of the examinations is calculated by dividing the sum of the point obtained from the-end-of the term examination and 40% of the score of the point average of intermediate examinations. When calculating this ratio, factions are preserved. However, the numbers with a half are rounded into a whole number in the calculation of raw achievement score. In case of projects, assignments and similar applications demanded of the students to do, their weights in the examinations are specified by the relevant member of the teaching staff, and the students are informed of it during the first week of the academic term through the resolutions of the relevant management board.

2- The weighted point a student gets for a course is the multiplication of ECTS credit of that course by the equivalent achievement score of that course.

- GPA is found by the division of the total weighted scores for all the courses taken by the student by the sum of their ECTS credits. The mean obtained is represented by a 2-digit number after a coma. In GPA, the grades S through F are taken into account.

 3-In the event that there are courses a student takes, the most recent grade that the student takes for that course is included in GPA.
- 3-in the event that there are courses a student takes, the most recent grade that the student takes for that course is included in GPA.
 4-Whether or not such courses as the Turkish language, Ataturk's principles and revolutionary history, foreign languages, and fine arts are to be included in GPA is pointed out in the regulations of the units. In cases where it is not included in GPA, a student has to get at least E if he is to be considered successful. The courses not to be included in GPA, apart from those mentioned above, are specified in the regulations of the relevant units.
 5-A student whose GPA is at least 55 is considered to be successful provided that he has passed all his courses.
 6-The students who have passed all their courses and have had an achievement grade of B at the end of a semester are included in the Honor List, while those with an achievement grade of A are included in the Superior
- Honor List.N.B.

GPA means Overall weighted point average.

4.5. Overall classification of the qualification (in original language):

- ADDITIONAL INFORMATION

Final Grade of Degree: Başarılı (Satisfactory) Genel Ağırlıklı Not Ortalaması (Gano): 77.31 / 100 Cumulative Grade Point Average (CGPA): 77.31 / 100

CGPA is calculated taking into account all courses that are accepted by the department in which a student is registered. In the calculation, all the courses the student takes from the first semester to the last semester are taken into account. Criterion for degree classification is:

90-100 -Yüksek Onur (High Honour) -Onur (Honour) 80-89 -Başarılı (Satisfactory) 55-79

5 - INFORMATION ON THE FUNCTION OF THE QUALIFICATION

5.1. Access to further study:

Upon successful completion of this programme, students may apply to second cycle degree or directly to integrated third cycle (doctorate) programmes.

5.2. Access to a regulated profession (if applicable):

This degree enables the graduate to exercise his/her profession in or a related field of the study.

6.1. Additional information:

N/A

Internship Information:

Internship, 20 days, Türkiye Halkbank A.Ş.
